PREPARING FOR CLASS

Please have your child use the bathroom BEFORE class starts! This helps them get the most out of class without having to take too many potty breaks!

We know that separation anxiety is normal and it happens often with our little ones. We love to work alongside our parents! We do our best to get them into class without the parent so they build confidence within them and to help other students. Please let us know if you have any tips or tricks that work at home that we can try!

If your child is in a combo class (a class with two styles) the teacher will specify which shoes they need on the whiteboard outside of the classroom (right next to the door of each room). The styles typically alternate each week.

OCTOBER

Our curriculum in October will encompass the 5 senses, fall animals, seasonal foods like apples and pumpkins and our imagination!

At Excel, we offer a couple "Peek Weeks" throughout the year. This is when we invite our families into the classroom for the last 10 minutes. During this time, you will watch your dancer show you an across the floor or a centre combination of all the things they have been learning so far! Our first Peek Week is October 19th-October 24th.

Make Believe week is October 26th through October 31st . During class this week, we will do a fun coloring page, halloween themed warm up, across the floor and choreography! Ending our class with a fun Halloween Freeze Dance and sticker cheer!
